

The Department of Medicine in collaboration with The Armstrong Institute for Patient Safety and Quality presents the  
**8<sup>th</sup> Annual Venous Thromboembolism (VTE) Symposium**

**Keynote Speaker:** Richard H. White, M.D.  
“Hospital-associated VTE: Findings from observational studies”

**When:** Friday, March 4, 2016  
**Where:** Johns Hopkins Hospital  
1800 Orleans Street, Hurd Hall  
Baltimore, Maryland 21287  
**Time:** 8:00am – 11:00am

Dr. Richard White received his M.D. from the Washington University School of Medicine, St. Louis, Missouri, in 1973. He undertook Internal Medicine Training at the University of California, San Francisco, San Francisco, California.

Currently, Dr. White is Professor and Chief of General Medicine at the University of California. He is also the Director of Anticoagulation Service.

Dr. White’s clinical interests include anticoagulation therapy and rheumatology. He directs the University of California, Davis Anticoagulation Service and treats patients with deep-vein thrombosis, pulmonary embolism and other conditions requiring oral anticoagulant therapy. He also is interested in osteoarthritis, rheumatoid arthritis and other arthritic conditions. His study of the pharmacology of anticoagulants and epidemiology of venous thrombosis has generated more than a dozen research papers.

- The event will begin with Medical Grand Rounds, featuring Richard White, MD.
- A series of short talks will follow showcasing the various VTE-related research studies across Johns Hopkins Medicine.
- In addition, we will have a panel of patients talking about their person experiences

We hope that you are available to join us for this event!
