

# ASK QUESTIONS. GET ANSWERS.

Have you ever wanted to ask world-renowned Afb experts your biggest questions about Atrial Fibrillation? If you'd like the chance to do exactly that — to engage with them as you learn the most current Afb-related information available today — this is your chance...

## Get in Rhythm. Stay in Rhythm.™

Atrial Fibrillation  
Patient Conference

HOSTED BY  
**StopAfib.org**  
For patients by patients

September 16–18, 2016  
Sheraton DFW Airport Hotel  
Dallas, Texas

The 2016 Get in Rhythm, Stay in Rhythm™ Atrial Fibrillation Patient Conference will provide vital up-to-date information and trustworthy resources to you and your loved ones, so you can finally begin reclaiming your life.

You will:

- Learn what Afb is, why it's a problem, and how to cope with it, including options for getting in (and staying in!) rhythm
- Clearly understand the most recent developments in — and guidelines for — Afb treatment (along with tips for working with your healthcare team for the best possible results)
- Have the opportunity to interact with our experts through panels and Q & A sessions, in addition to one-on-one discussions during breaks
- And more.

StopAfib.org — a nonprofit organization created by Afb patients for Afb patients — invites you to this life-changing weekend-long conference so you and your loved ones can better understand Atrial Fibrillation, manage treatment, and possibly become Afb free.
