*Grifols Program Series presents*

# Virginia A. Kraus RN MSN

Virginia A. Kraus, RN, MSN is a Senior Clinical Education Manager/Medical Science Liaison for Grifols. She works with the communities for coagulation disorders, neurologic and immunodeficiency disorders, and hyperimmune therapy. She has developed therapy-specific training.

She has many years of clinical management experience in acute care, disease management implementation, and national account management. She has been intricately involved in the care of acute and chronic diseases and has learned the impact of living day to day with these conditions and the importance for patients and their families to have the peace of mind of receiving high quality, safe treatments.

Virginia received her diploma in Nursing from Bellevue Hospital/NYU and her Masters in Nursing from Anna Maria College in Massachusetts.

She has published several articles on the management of high impact / low prevalence diseases in *The Journal of Care Management* and also in the *Journal of Parenteral and Enteral Nutrition*.
