## PREGNANCY AND THROMBOPHILIA

If you are a woman of childbearing age who has been diagnosed with a blood clot or a clotting disorder, join the National Blood Clot Alliance and Grifols during Women's Health Month for a Facebook LIVE event on May 11, 2021, at 3:00 p.m. Eastern to discuss pregnancy and thrombophilia.

### FEATURING DR. RACHEL ROSOVSKY

Featuring a conversation between medical expert and NBCA Medical & Scientific Advisory Board member Dr. Rachel Rosovsky, and a patient diagnosed with thrombophilia who had a successful pregnancy.

### OVERVIEW OF THROMBOPHILIA

Hear an overview about thrombophilia and various types, including hereditary antithrombin deficiency (hATd), and gain information about diagnosis and treatment.

### THROMBOPHILIA & PREGNANCY

Learn how thrombophilia can affect pregnancy, management of pregnancy in thrombophilia patients, and how successful pregnancy is possible for thrombophilia patients.
